

```
detail::iter_impl::  
operator>=
```

```
graph LR; A["detail::iter_impl::  
operator>="] --> B["operator<"]
```

A diagram showing a call from the `detail::iter_impl::operator>=` function to the `operator<` function. The source function is in a grey box on the left, and the target function is in a white box on the right. A blue arrow points from the source to the target.

```
operator<
```
